

AP Biology Graphs

Any graph you draw on the AP Exam will be graded on the following criteria:

Graph Include All Major Components

- Axes have both labels and units
- The graph begins at point 0,0
- The intervals of each axis are evenly spaced

Axes are Appropriate

- Independent variable on x-axis
- Dependent variable on y-axis

Points Are Plotted Correctly

- Only include the data listed in the table
- Do not connect to point 0,0 unless it is a point on the data table
